References: [APA style](#). If you use reference management software, please remove any formatting

Submission Format:

Papers should be sent as email attachments. The preferred format is Word, but most standard word processor formats are acceptable (not PDFs). All papers will be reformatted in the same format (Ariel) and font (11 point), with 1" margins. PowerPoint or other slide presentations will **not** be accepted.

Notes:

- Please do not break your paper into sections.
- Images and tables must fit within the margins or they may not be used. It is best if tables are built within Word.
- Please don't wrap text around images or tables as that may cause problems in the final version.
